DRAWINGS REFERENCE POLICY

1. **BACKGROUND:** The National Air and Space Museum (NASM) is a source for historical materials and data regarding air and space craft. It makes these materials available for use by students, educators, scholars, the public, and commercial users consistent with United States copyright, trademark, patent and related laws in furtherance of the Smithsonian Institution's commitment to the increase and diffusion of knowledge.
2. **POLICY:** It is the policy of NASM to make available on an equal basis to requestors drawings and other data in NASM's custody relating to air and space craft. Requestors have access to these materials and data by visiting NASM and reviewing documents in NASM's reading rooms and by requesting copies of documents in NASM's custody and paying established fees for reproduction and shipping. Documents and data are supplied in support of historical research. Historical research includes, among other endeavors, development of publishable scholarly and popular works, developing exhibitions, and building model aircraft, and historical, static non-flying restorations. NASM does not provide historical documents and data in support of construction of airworthy, human-carrying replicas of aircraft. Nor does NASM support the Approved Type Certificate process.
3. **PROCEDURE:** Requestors of air and space craft drawings must execute an agreement with NASM indicating their intent to use the drawings and data supplied by NASM only for historical research, exhibition, model making, or non-profit restoration purposes. Requestors will also agree that the documents and data are intended solely for personal and non-commercial use, that these documents and data will not be used to create a replication of any aircraft, and that copies of the documents and data will not be reproduced, distributed, or transmitted. This signed agreement must be provided to NASM before orders for copying of drawings are accepted.
4. **COMMERCIAL USE:** NASM will refer requests to support commercial publication, model building, or replication to the Smithsonian Institution's Office of Product Development and Licensing for negotiation of appropriate agreements.

Effective Date: August 11, 1997.

DOCUMENT USE AND INDEMNIFICATION AGREEMENT

The National Air and Space Museum, Smithsonian Institution (hereafter Museum) agrees to provide (Name:) _____ (hereafter Requestor) reproductions of drawings and/or other documents containing design data of air and space craft described below:

(See reverse of this form for information on proper citation of types.)

These reproductions from the Museum's archival collections will be furnished to Requestor subject to the following terms and conditions:

The reproductions are made available by the Museum solely for personal, non-commercial uses such as historical research, exhibition, model making, or non-profit restoration purposes. Permission for such uses is granted only to the extent of the Smithsonian Institution's ownership of the rights related to the request. Certain drawings and data may be subject to copyright, trademark, patent or related interests not owned by the Institution. The responsibility for ascertaining whether any such rights exist and for obtaining all necessary permissions remains with the Requestor.

The Museum makes no representations or warranties that the reproductions furnished meet current or past airworthiness standards or are in any way suitable for use in the construction or repair of aviation or aerospace equipment.

The reproductions provided by the Museum may not be further reproduced, distributed, published, transmitted or used for manufacturing or replication purposes. Requestor agrees to release, defend, hold harmless, and indemnify the National Air and Space Museum and the Smithsonian Institution, its Regents, officers, employees, and agents, and the United States Government from and against any and all claims, suits or actions of any nature arising from any loss or damage resulting from or in any way connected with loss or damage resulting from or in any way connected with uses not consistent with the permissions granted herein.

Requestor acknowledges that he/she has read and understands the terms of this agreement.

Additional Disclaimer

The disclaimer and restrictions below are additional to the terms specified in the National Air and Space Museum Archives Division *Document Use and Indemnification Agreement*. Both the standard *Indemnification* and this document must be signed and returned to the National Air and Space Museum by the researcher before any material from this collection can be duplicated and released to the researcher.

Restrictions per Deed of Gift executed December 21, 1988

“The National Air and Space Museum and Donor make no representations of warranties that any aircraft drawings/reports received from the Museum are suitable or appropriate for the construction of aircraft or aircraft parts. These items are released for educational and research purposes only. The Museum and Donor assume no liability for loss or damage whatsoever resulting from the use of these drawings. Possession of any drawing or report does not constitute a license to construct aircraft or parts from these drawings and such action is expressly prohibited.”

I acknowledge that I have read, understood, and agree to abide by the disclaimer and restrictions upon the use of this material as detailed above.

NASM Archives Accession No. 1989-0028

HOW TO ORDER COPIES OF DRAWINGS

NASM's collection of Mooney M-18 Mite drawings is available to restorers, researchers, model builders, and the general public. The collection consists of 600+ individual original engineering drawings for the Mooney M-18 series. **You may use this form to obtain a price quote for individual drawings (by drawing number).**

HOW TO ORDER COPIES OF MOONEY DRAWINGS:

Due to the nature of the *Mooney M-18 Drawings and Reports Collection*, there are several steps you must follow to obtain specific Mooney drawings. You must:

1. Obtain a listing of Mooney M-18 drawing numbers. A 22 page parts listing is available from NASM for \$6.60 plus shipping.
2. Review the drawing list carefully. **Because of the large number of orders we receive and the limited number of staff available to fill these orders, you may request a maximum of twenty-five (25) drawings per order, with a limit of one order in process per individual or organization.** We recommend that you decide your priorities for ordering individual drawings based on the status of your own restoration or reconstruction project. (What part of the aircraft are you most interested in? Where would you like to start? Nose? Tail? Landing gear?) *The NASM Archives is not able to make these decisions for you.*
3. When you have decided which drawings you would like to order, please complete the Price Quote Request form on the other side of this page. Be sure to give us your name and mailing address. **Please make your request by drawing number and title, listing selected drawings in drawing number order from lowest to highest.** Please mail your completed request for *no more than 25 drawings* to the address below.
4. After the NASM Archives has reviewed your request, you will receive a customized price quote which will enable you to order copies of the drawings on your list. Why do you need to receive a price quote before you send money? Mooney drawings come in a wide variety of sizes; the cost of each copy drawing is calculated at the rate of \$0.70 per square foot.
5. Based on the customized price quote, decide which Mooney drawings you would finally like to order, add shipping costs (\$12.00 for continental U.S.; \$17.50 for Alaska, Hawaii, Puerto Rico, and Canada; or \$25.00 for foreign and overseas), and send us a check for the correct amount.
6. Your duplicate Mooney drawings will be sent via UPS or U.S. mail.

VERY IMPORTANT!!! Do not send payment until you receive a cost estimate from us. You will be provided with a price quote for copies of the drawings which you have requested. We ask that you return a copy of the price quote with your selections noted as your final order.

YES, we know that this seems complicated, and NO, there isn't any other way you can do this. Please be advised that the NASM Archives Division is not able to hold money on account for our customers, or to carry credit from order to order, or make drawing selections for you.
