Join the National Air and Space Museum’s Education Team

Summer Student Volunteer Program

Interested in learning more about astronomy, space missions, and aviation? Want to share your passion for air and space with others? We’re looking for high school and college students (age 16 and up) to volunteer with our education team this summer in downtown Washington, DC. You’ll be involved in a variety of activities, including the observatory, story time, discovery stations, and more!

Training

You will participate in training conducted by Museum staff. Training begins with a day of Orientation to the National Air and Space Museum and the public programming you’ll lead. You’ll learn about astronomy, space missions, and aviation content knowledge, public education techniques, and operating procedures. Then, you’ll participate in on-the-job training as you learn to facilitate educational activities with our visitors.

Schedule

Summer volunteers must commit to work two weekdays each week (Monday-Friday) from 10:00 am to 3:30 pm. If you will be unavailable for more than one week of the program (see dates below), you are not encouraged to apply.

Apply Today!

Applications must be received by **February 15, 2015**. Interviews and volunteer selection will follow.

To apply, please complete the Volunteer Application at [http://airandspace.si.edu/support/volunteer/volunteer-application.cfm](http://airandspace.si.edu/support/volunteer/volunteer-application.cfm)

In the box for “Relevant Experience”, please specify whether you can attend Session 1 or Session 2 of the Summer Student Volunteer Program. Then, elaborate on your academic interests and personal experience as they relate to astronomy, aviation, and space missions, as well as why you are interested in volunteering at NASM.
