EXPLAINERS conduct science demonstrations on aviation, space exploration, and astronomy. They also encourage informal learning by assisting visitors with hands-on activities in the How Things Fly gallery—an action-packed area overflowing with interactive fun that explores the principles of flight. In How Things Fly, children and adults can maneuver an aircraft with a joystick, climb into the cockpit of a Cessna, test a supersonic shockwave, and compare their weight on different planets.

The Explainers Program provides high school and college students with a valuable experience working at the National Air and Space Museum. Pay is competitive and increases over time, and hours are flexible.

You don’t have to be a physics or engineering major to enjoy working here. All of the exhibits are hands-on and Explainers enjoy them as much as the visitors do.

– Melanie

The Explainers Program is generously funded by Cessna Aircraft Company

Become a Part of the World’s Most Renowned Aviation and Space Museum as an “Explainer”

READY TO JOIN OUR TEAM?

Fill out the application and send it to:
Explainers Program Coordinator,
Smithsonian Institution, National Air and Space Museum,
PO Box 37012, P-700 MRC 305, Washington, D.C. 20013-7012
OR Fax to (202) 633-8928

THE REWARDS ARE GREAT

Every day is different here in the How Things Fly gallery, and Explainers share in the excitement visitors experience as they learn about the physics of flight.

The flexible schedule is ideal for students. During the summer Explainers are expected to work at least one day per week and no more than four days per week. During the school year we ask that Explainers work at least two days each month. Half-day and weekend schedules are available.

Pay is competitive and increases over time.

COULD YOU BE AN EXPLAINER?

Even if you don’t know anything about aviation or space, you can be an Explorer.

If you have an outgoing personality and can communicate well with diverse audiences, work in a fast-paced environment, and write clearly, we can teach you the rest.

If you are available to spend at least one summer and school year as an Explorer, we’re looking for dedicated individuals like you!

APPLICATION PROCEDURE

Please submit the following:

Completed application form located in this brochure or online at www.nasm.si.edu/getinvolved/explainers

Official high school and/or college transcripts

A typed, double-spaced essay describing how your unique skills and qualifications would help you contribute to the success of the program and how this job would help you reach your career and/or educational goals

Two letters of recommendation

Send your complete application package to:
Explainers Program Coordinator
Smithsonian National Air and Space Museum
PO. Box 37012 P700 MRC 305
Washington, D.C. 20013-7012

STATEMENT OF PURPOSE

A typed, double-spaced essay describing how your unique skills and qualifications would help you contribute to the success of the program and how this job would help you reach your career and/or educational goals.

Please note: Incomplete application packages will not be considered.

---

With flexibility in my schedule, I can put my schoolwork first.

– Dan

The Explainers program sharpened my communication skills and ability to work collaboratively with a group of people. It’s a great foundation for my post-college career search.
