U.S. NAVY WORLD WAR II AIRCRAFT RECOGNITION MODEL PLANS

NASM Archives Accession Number XXXX-0438

These pattern drawings are the result of a joint project between the U. S. Navy Bureau of Aeronautics and the U. S. Office of Education to create large numbers of recognition models for military training. The drawings listed on the following pages are the **ONLY** drawings from this project in the National Air and Space Museum (NASM) Archives Division collection. Titles appearing in the "Aircraft" column of this list have been copied directly from the original titles on the drawings. Information appearing in brackets has been added by the NASM Archives Division in an effort to clarify imprecise or inaccurate original titles.
